Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt is acknowledged of amendment and remarks file don 10/11/07. Claims 4 and 11 have been canceled as per applicant's amendment dated 10/11/07. Claims 1-3 and 5-10 and 12-17 are pending in the application and the status of the application is as follows:

The following new ground of rejection is necessitated by the amendment.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-3, 5-10 and 12-17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. **This is new matter rejection.**

There is no support for the scope of claim 1 with respect to the added material, which is "wherein components i) and ii) can form micro-emulsion with equal weights of water and triolein at a minimum concentration of components i) of 15%".

Applicants point out support for the limitation that components i) and ii) can form a micro-emulsion with equal weights of water and triolein at a minimum concentration of component i) of 15% as discussed and demonstrated in Examples 3 and 5 (specifically tables 4 and 5, pages 27 and 28).

Art Unit: 1615

The tables do not show that the support for the above limitation. Is the alkyl chain in formula I is straight or branched. What is the value of x and y? What is the weight percent of I) used in examples 3 and 5 and what is the weight percent used for component ii) used in examples 3 and 5. What is the molecular weight pf polybutadiene and polypropylene oxide used in the examples and tables? Examples 3 and 5 do not use astringent salt.

In conclusion, applicants have not contemplated the concept for the limitation "wherein components i) and ii) can form micro-emulsion with equal weights of water and triolein at a minimum concentration of components i) of 15%" for the entire genus claimed in the instant application.

In response to this rejection, if applicant delete new matter, then the previous art rejection will be applicable.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
